
Sound Power level for indoor unit:
58dB (heating)

Sound Power level for outdoor unit:
64dB (heating)

elbu(-10℃): 0,00kW

Refrigerant: R410A (GWP=1975)

Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 1975. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 1975 times higher than 1 kg of CO_2, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.

Energy consumption “XYZ” kWh per year, based on standard test results. Actual energy consumption will depend on how the applicance is used and where it is located.
