heating & cooling solutions

# Panasonic environmental vision 2050

To achieve “a better life” and “a sustainable global environment,” Panasonic will work towards creation and more efficient utilisation of energy which exceeds the amount of energy used, aiming for a society with clean energy and a more comfortable lifestyle.

## Vitalise the future with air.

These are times of exceptional challenge.

If the world is to move forward confidently, it must overcome the serious threats of the new global pandemics and the degrading of the environment. It must find ways large and small to reduce the stresses that affect people's health and the stability of their communities.

## 100% Panasonic, the DNA of Japanese craftsmanship

Applying advanced technologies that truly make life better, we live by an unparalleled commitment to product quality.

Panasonic is building on the Japanese tradition of uncompromising quality control worldwide, developing and manufacturing fine products and delivering them to customers everywhere.

## Bringing nature's balance indoors.

nanoe™ X, technology with the benefits of hydroxyl radicals.

In today's health-conscious world, we care about taking exercise, we care about what we eat and what we touch, we also care about what we breathe – and technology exists to bring good outdoor air, indoors.

## A globally trusted air conditioning brand.

Panasonic – leading the way in Heating and Cooling.

With more than 50 years of experience, selling to more than 120 countries around the world, Panasonic is one of the leaders in the heating and cooling sector.

With a diverse network of production and R&D facilities, Panasonic delivers innovative products incorporating cutting-edge technologies that set the standard for air conditioners worldwide.

## Editorial

Panasonic – leading the way in Heating and Cooling. With 65 years of experience, selling to more than 120 countries around the world, Panasonic is one of the leaders in the heating and cooling sector.

### Bringing nature's balance indoors.

nanoe™ X, technology with the benefits of hydroxyl radicals that have the capacity to inhibit pollutants, viruses, and bacteria and deodorise.

## Commercial air to air - PACi

The commercial range is continuously being improved to offer the optimal solutions. High performance, silent operation and a wide range of indoor units and connectivity available.

### PACi NX Series.

This series for absolute ease of refurbishment. Having 3 wired power and communications makes the replacement old systems with 3 wiring connections simple and easy.

## Ventilation

Panasonic ventilation solutions for maximum savings and easy integration.

### Air handling unit connection kit for PACi, ECOi and ECO G.

Air handling unit (AHU) connection kit connects outdoor units to air handling systems. Combines air conditioning and fresh air in just one solution.

## Refrigeration

Panasonic CO<sub>2</sub> condensing units - CR Series with natural refrigerant.

Natural refrigerant solution for showcases and cold rooms. Reliable quality - made in Japan.

### Refrigeration.

CR Series is an ideal solution for supermarkets, convenience stores and gas stations. Let's choose the sustainable green solution by Panasonic.

## Domestic

Panasonic has developed a range of domestic products designed for you and your clients.

### New Etherea: a very welcome addition to your home.

The smart, new Etherea comes with the new nanoe™ X (Generator Mark 3) and built-in Wi-Fi which enables advanced smart control and voice assistant, now with an easier and quicker set-up.

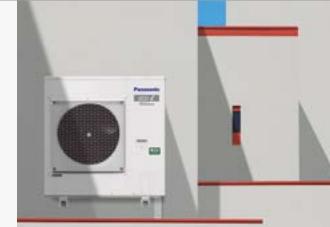

## Commercial VRF Systems - ECOi and ECO G

Panasonic provides an extensive range of solutions for medium and large sized buildings, combining the best options to satisfy all needs and site restrictions.

### Mini ECOi LZ2 Series R32.

Outstanding efficiency in a compact body and continuous operation even at extreme ambient temperatures.

## Cooling only and heat pumps chillers - ECOi-W

ECOi-W provides the optimal performance in any climatic condition. Meeting customer's needs with fully customisable solution at hotels, offices and industries.

### ECOi-W R32 cooling only and heat pumps chillers.

Sustainable chiller solutions with R32 refrigerant to suit a variety of commercial and industrial applications.

# Bringing nature's balance indoors

**nanoe™ X, technology with the benefits of hydroxyl radicals.**

In today's health-conscious world, we care about taking exercise, we care about what we eat and what we touch, we also care about what we breathe – and technology exists to bring good outdoor air, indoors.

**Effective on fabrics and surfaces.**

1 | At one billionth of a metre, nanoe™ X is much smaller than steam and can deeply penetrate cloth fabrics to deodorise.

**Longer lifespan.**

2 | Contained in tiny water particles, nanoe™ X has a long lifespan, which is about 600 seconds, to spread easily around the room.

**Huge quantity.**

3 | nanoe X Generator Mark 2 produces 9.6 trillion hydroxyl radicals per second. Greater amounts of hydroxyl radicals contained in nanoe™ X lead to higher performance on inhibition of pollutants.

**Maintenance-free.**

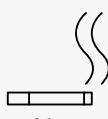

The image shows nanoe X Generator Mark 2.

4 | No service and maintenance required. nanoe™ X is a filter free solution that does not require maintenance, as its atomisation electrode is enveloped with water during its generation process and it is made with Titanium.

## 7 effects of nanoe™ X

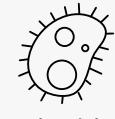

\* Refer to <https://aircon.panasonic.eu> for more details and validation data.

**Deodorises**

Odours

**Capacity to inhibit 5 types of pollutants**

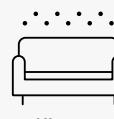

Bacteria and viruses

**Capacity to inhibit 5 types of pollutants**

Mould

Allergens

Pollen

Hazardous substances

**Moisturises**

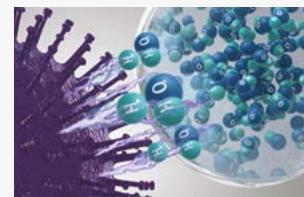

Skin and hair

**nanoe™ X technology takes this a step further and brings nature's detergent – hydroxyl radicals – indoors to help create an ideal environment**

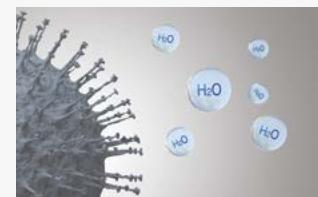

Thanks to the nanoe™ X properties, several types of pollutants can be inhibited such as certain types of bacteria, viruses, mould, allergens, pollen and certain hazardous substances.

1 | nanoe™ X reliably reaches pollutants.

2 | Hydroxyl radicals denature pollutants' proteins.

3 | Pollutants activity is inhibited.

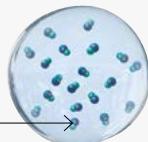

**First nanoe™ device was developed by Panasonic in 2003**

**Generator: nanoe™**

2003

480 billion hydroxyl radicals/sec

**Ion particle structure**

Hydroxyl radicals

**Generator: nanoe™ X**

Mark 1 - 2016

4.8 trillion hydroxyl radicals/sec

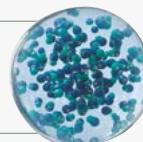

Mark 2 - 2019

9.6 trillion hydroxyl radicals/sec

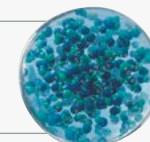

**NEW** Mark 3 - 2022

48 trillion hydroxyl radicals/sec

# Panasonic software and tools

Panasonic provides bespoke software and tools helping system designers, installers and dealers to very quickly select, design and size systems or create wiring or hydraulic diagrams at the push of a button.

## Aquarea Designer - online tool

With Panasonic's online tool, projects can be developed simply and easily. The newly developed tool is optimised to help HVAC professionals easily identify the most appropriate Aquarea air to water heat pump for a particular application.

## New Panasonic DX PRO Designer

The Panasonic DX PRO Designer will be rebuilt with an improved user experience. The new software runs in the cloud and is always up to date with the latest products. An intuitive interface supports the most complicated designs, allows online sharing and project collaboration with multilingual support.

\* Available from Spring 2023.

## Chiller configurator

This online software solution offers a complete tool to allow the user to accurately calculate the performance at specified conditions, select and configure our range of commercial chillers, heat pumps and fan coils. It also provides a comprehensive report to share with customers and clients alike.

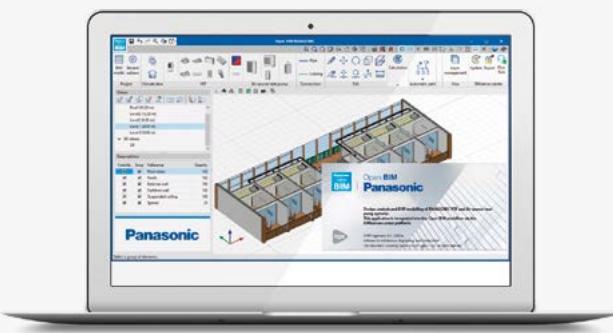

## Domestic AirCon Quick Selector

This user-friendly online tool for our domestic range allows to choose the best split or multi-split system for each project needs and get the specifications of that particular application.

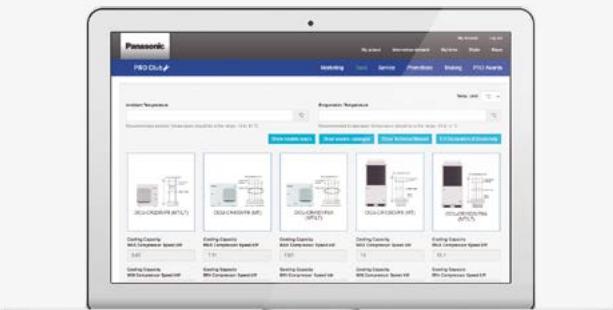

## Open BIM

Design, analysis and BIM modeling of Panasonic VRF and Air to Water heat pump systems. Generates documents, 3D model, schematics and drawings. This application is integrated into the Open BIM workflow via the BIMserver.center platform.

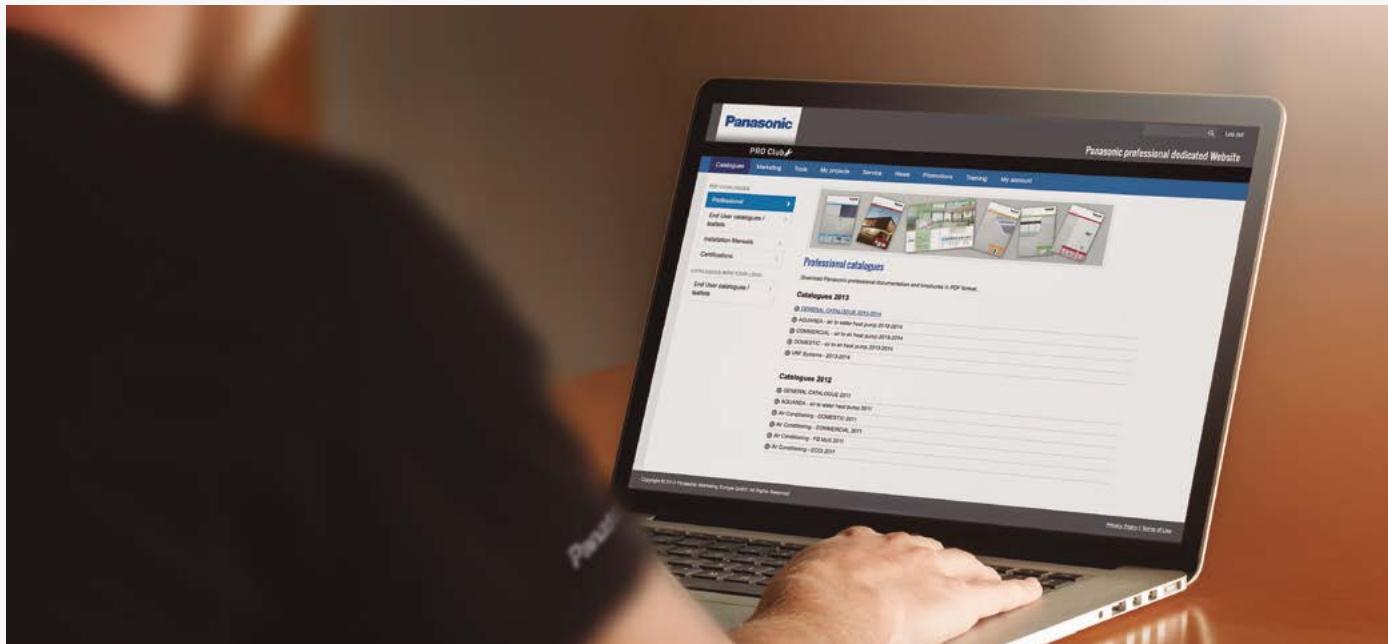

## Refrigeration designer

This simple design tool supports engineers, installers, and technicians to make a quick calculation for commercial refrigeration systems.

# PRO Club. The professional website of Panasonic

Panasonic has an impressive range of support services for designers, specifiers, engineers and distributors working in the heating and cooling markets.

Panasonic PRO Club ([www.panasonicproclub.com](http://www.panasonicproclub.com)) is the online tool which makes your life easier! You just have to register and a lot of functionalities are freely available to you, where ever you are, from your computer or smartphone!

- Print catalogues with your logo and contact details
- Access to the extensive library of professional design, selection and calculation tools (Aquarea Designer, VRF software, chiller selector, etc.)
- Get documents of conformity and all other documents you may need
- Download all the service manuals, end user manuals and installation manuals
- Download energy labels in PDF format using the energy label generators

- Download Revit and CAD files and specification texts
- Know what to do with error codes (error code search by error code or unit ref.)
- PRO Academy: register for training
- Download product images in high resolutions, advertisements, deco guidelines
- Get to know special offers and promotions
- Find out about the latest news first

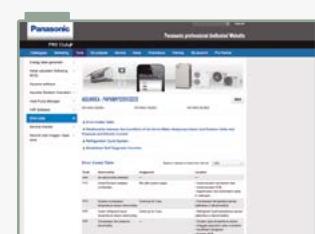

Easy download Panasonic service documentation and brochures

Customise leaflets with your logo and contact details. Save and print the PDF

Energy label generator. Download Energy labels of any device in PDF format

Error Code on your smartphone and your PC: Search by error code or model reference. Online version + downloadable version for offline use

Panasonic PRO Club is fully compatible with tablet computer and smartphone.

Visit [www.panasonicproclub.com](http://www.panasonicproclub.com) or connect simply with your smartphone to the PRO Club using this QR.

# Panasonic PRO Partner scheme

## Scheme overview

Designed to support the business development of installers who continually choose the quality and innovation of our professional and residential solutions, the Panasonic PRO Partner scheme offers an extensive range of rewards, from extended warranties to business support of up to £800.

Our commitment to quality extends far beyond our products, which is why we have developed a partner scheme designed to support installers who value our solutions.

The scheme is divided into three exclusive tiers, each offering a unique set of rewards to installers that trust the quality and reliability of Panasonic Heating & Cooling Solutions. Our three options have been meticulously designed to ensure that installers find the scheme that suits their exact business needs.

- The accredited installer tier has been developed for installers that have completed a Panasonic accredited training course which is on PRO Club and can be done at any time.**
  - Warranty up to 5 years, subject to conditions
  - Reward points that can be exchanged for clothing, merchandise and more
  - Increased business visibility through our installer finder network, listed as an accredited installer

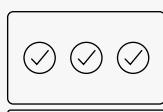

- To be eligible for PRO Partner status, installers must be committed to selling Panasonic products and they must complete Panasonic face-to-face training based in one of our UK training centres.**
  - Extended warranty of up to 7 years, subject to conditions
  - Enhanced reward points that can be exchanged for clothing, merchandise and more
  - Increased business visibility through our installer finder network, listed as a PRO Partner
  - Business support fund

- To become an Elite PRO Partner, installers must be true advocates of Panasonic Heating & Cooling Solutions, this includes completion of our face-to-face training courses in one of our UK training centres.**
  - Extended warranty up to 7 years, subject to conditions
  - Enhanced reward points that can be exchanged for clothing, merchandise and more
  - Increased business visibility and boosted sales through our installer finder network listed as an Elite PRO Partner
  - Enhanced Business support fund

## Benefits

**The PRO Partner scheme offers a myriad of benefits to enhance business opportunities for ambitious installers that are passionate about our products.**

**Increased visibility on PRO Club.**  
The unique i-Finder feature available with our PRO Partner membership helps to provide exposure for installers. Installers are added to our network of worldclass heating and cooling industry professionals, listed as either accredited installer, PRO Partner or Elite PRO Partner depending on their chosen scheme.

**PRO Partner rewards portal.**  
With each of our exclusive PRO Partner tiers, members can earn points on their installations which can be exchanged for Panasonic branded merchandise, clothing and more.  
To begin earning points for installations, members of the PRO Partner Scheme must register their Panasonic unit on our PRO Club platform to begin earning points and subsequent Panasonic rewards.

**Business support fund.**  
To support installers, and businesses with their business development, the Panasonic PRO Partner scheme offers PRO Partners and Elite PRO Partners an incredible business support package in the form of additional reward points. These contributions are designed to further the growth and success of installers' businesses with personalised sales literature, industry memberships, training courses and beyond.

## 24hr business support centre

As part of our commitment to support our installers with the PRO Partner scheme, we aim to ensure that the administration is as easy as possible for our installers. You warranty registrations and points statements will be automatically updated by your scheme administrator if you have one, or alternatively we have introduced a 24hr call centre and e-mail address, which can assist in the submission of commissioning forms, warranty registration and general PRO Partner requests.

# Training centres

Please speak to us about on site training courses.

**1** Bury, Manchester

**2** Welwyn Garden City, Hertfordshire

**3** Livingstone, West Lothian

Training can be arranged on site for six engineers or more, or via our bespoke air to water training van. For our PRO and Elite PRO Partners our air to water training van is also available to book for trade fairs and exhibitions (bookings must be made 4 months in advance).

Training Centre	A2W	RAC, PAC and VRF	CO <sub>2</sub>

**PRO Club** 

# Warranty terms and conditions

Please speak to us about on site training courses.

## The Standard warranty

### 3 years parts and labour (A2W exc. Labour).

- The unit should be installed by a competent person
- The installation instructions supplied with the unit must be followed
- Annual maintenance records must be kept

## The Extended warranty

### 5 years parts and labour.

- The unit should be installed by a competent person
- The installation instructions supplied with the unit must be followed
- Annual maintenance records must be kept
- The installer must be an Accredited Installer and must have completed the relevant Panasonic training
- The installer must register the unit on PRO Club (VRF and A2W units require additional commissioning documentation uploading onto PRO Club)

## The Extended+ warranty

### 7 years parts and labour.

- The unit should be installed by a competent person
- The installation instructions supplied with the unit must be followed
- Annual maintenance records must be kept
- The installer must be a current PRO Partner or Elite PRO Partner and must have completed the relevant Panasonic training
- The Installer must register the unit on PRO Club (VRF and A2W units require additional commissioning documentation uploading onto PRO Club)
- A2W units must be installed with a CZ-TAW1B adapter\*

\* CZ-TAW1B Installation is mandatory on all Air to Water installations for 7 year warranty to be granted. For retrofit installations, the CZ-TAW1B must be installed and the smart cloud service activated. For new build installations, smart cloud activation is not mandatory for the 7 year warranty to be granted.

## Where do I register my unit for warranty?

**Warranty registration can be completed through the PRO Club platform, or for PRO Partners via the 24 hour support centre via e-mail: [propartner.uk@eu.panasonic.com](mailto:propartner.uk@eu.panasonic.com) or phone 01189 287 569.**

## Spare parts ordering - in warranty requests.

- Ring the air to water technical service support line on: 01707 378670 to diagnose the issue and receive a warranty request code
- Receive and complete the in warranty spare parts form as provided by the technical team
- Complete and return the form to the following inbox: [uk-aircon-service@eu.panasonic.com](mailto:uk-aircon-service@eu.panasonic.com)
- The spare part request is processed and the item(s) distributed

Our commitment to quality extends far beyond our products, which is why we have developed a partner scheme designed to support installers who love our solutions as much as we do.

To find out more about how you can become a Panasonic PRO Partner and have access to a complete range of benefits including extended warranty, business support and reward points, click on the link below:  
[www.aircon.panasonic.eu/GB\\_en/propartner](http://www.aircon.panasonic.eu/GB_en/propartner)

-ETHEREA-

# Panasonic domestic air to air heat pump

Panasonic has developed a range of products designed for you, better than ever before. Above all, it is also a range for air conditioning professionals, such as yourself, thanks to its broad range of products which are capable of conditioning rooms of all sizes – always with optimal efficiency and incomparable ease of installation.

## New Etherea with nanoe™ X technology

- nanoe™ X technology to improve protection 24/7 (Generator Mark 3)
- Sleek and stylish design, in Graphite grey, Silver and Matt white color
- Improved SEER / SCOP to achieve top class energy efficiency
- Built-in Wi-Fi for instant connectivity, now with an easier and quicker set-up
- Compatible with Google Assistant and Amazon Alexa

## Wall-mounted TZ super-compact.

- The perfect air conditioner for the smallest spaces in your home (only 779 mm wide)
- nanoe™ X technology to improve protection 24/7
- Built-in Wi-Fi for instant connectivity, now with an easier and quicker set-up
- Compatible with Google Assistant and Amazon Alexa
- High energy savings

## Wall-mounted indoor units, designed for simple installation and maintenance.

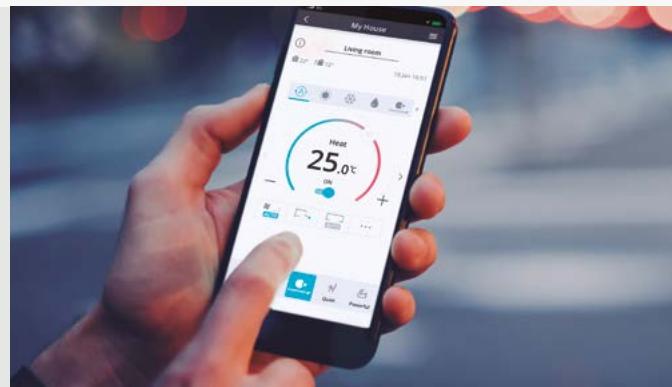

The full range of wall-mounted indoor units has been carefully designed for simple, stress-free installation and ongoing maintenance.

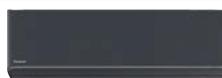

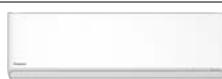

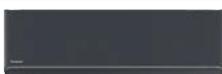

## Welcome to the connected world of Panasonic Comfort Cloud App.

Panasonic Comfort Cloud App put total control of your indoor air quality at your fingertips.

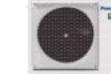

- In control of cooling comfort anytime, anywhere
- Easily manage your comfort and air quality
- More comfort with less wasted energy
- Be informed of breakdowns

## Welcome to the connected world of Panasonic Comfort Cloud App.

Whether you are at home, at the office or running a business, Panasonic Comfort Cloud App put total control of your indoor air quality at your fingertips.

- Remote control. Control and monitor your air conditioners anytime, anywhere
- Monitor energy consumption. Check the energy consumption of each individual unit across different time intervals by comparing the energy usage patterns to maximise energy savings
- nanoe™ X: improving protection 24/7\*. Switch on nanoe™ X mode with cooling OFF / ON and see the nanoe™ X coverage in your space through a simulation

\* Only for units compatible with nanoe™ X function.

# Panasonic Commercial air to air

Panasonic has developed an impressive range of highly efficient Commercial Air Conditioners. This range confirms our commitment to the environment, with our highly efficient Inverter compressor technology to optimise performance.

## PACi NX Elite PZH4 Series (7.1 - 14 kW).

- Compact single fan design up to 14 kW, will fit in limited installation space
- Highly efficient performance in a compact body
- Extended operation range up to 52 °C in cooling and down to -20 °C in heating
- Long piping allowance maximum 100 m <sup>1)</sup>
- Cooling down to -20 °C <sup>2)</sup>

1) For models 100 ~ 140. 2) For models 100 ~ 140 with pipe length up to 30 m.

## A wide range of air to air indoor units with nanoe™ X as a standard.

Better indoor air quality with nanoe™ X.

- nanoe™ X is a filter free solution that does not require maintenance
- 99.9% SARS-CoV-2 inhibition within 2 hours <sup>1)</sup>

1) Novel coronavirus [SARS-CoV-2], [Test organization] Texcell [France] [Test subject] Adhered novel coronavirus [SARS-CoV-2] [Test volume] 45 L enclosed box [Test result] Inhibited 99.9% in 2 hours [Test report] 1140-01 A1.

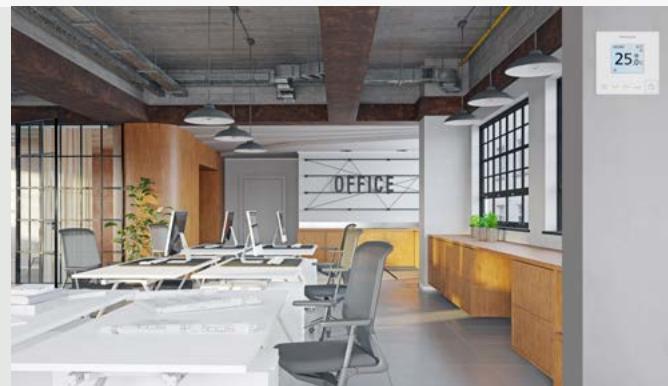

## CONEX. Devices and apps.

White version is newly available.

- Intuitive control with stylish design
- Apps available for daily remote control operation via Bluetooth® <sup>1)</sup> or Wi-Fi <sup>2)</sup>
- Panasonic H&C Diagnosis App for professionals <sup>1)</sup>

1) Panasonic H&C Control App and Panasonic H&C Diagnosis App. 2) Panasonic Comfort Cloud App.

## YKEA server room solution.

Perfect solution for smaller server rooms.

- Designed for 24/7 operation
- Operation down to -25 °C ambient
- Aerowings 2.0 technology for enhanced airflow distribution
- High seasonal performance

2) Add 100 mm for indoor unit or 70 mm for outdoor unit for piping port. 3) Outdoor unit located lower / outdoor unit located higher. \* No filter included.

## CONEX. Devices and apps.

CONEX provides comfort and control for varying user needs.  
Accessible, flexible and scalable with different controllers and apps.  
Perfectly meeting requirements of modern controls for end user,  
installer and service. With nanoe™ X function, technology with the  
benefits of hydroxyl radicals.

### Panasonic H&C Diagnosis App for service and installer.

Tool for diagnosis and troubleshooting.

### Panasonic H&C Control App for end user, service and installer.

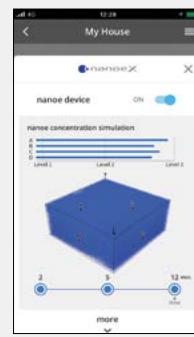

Detailed operation setting.  
Detailed maintenance setting.

### Panasonic Comfort Cloud App for end user.

Remote operation via Wi-Fi.

### Model reference Description RRP £

## Low temperature applications.

Panasonic PACi NX Elite offers a high quality and efficient solution for low temperature applications.

The PACi NX Elite range caters special applications that require cooling to maintain rooms between 8 °C WB and 24 °C WB (10 °C DB and 30 °C DB). In order adjust the product for low temperature applications, in terms of enthalpy, the indoor unit needs to be over-dimensioned and certain parameters need to be adjustable. Below are the compatible configurations for each of the PACi NX Elite range. There is a complete range from 3.6 to 22.0 kW.

### Overview

The Panasonic PACi NX Elite range of semi-industrial systems has been developed to lead the way in quality air conditioning for commercial environments. The Elite line is prevalent in low temperature applications, including wine cellars, server rooms and food storage areas, thanks to its ErP-approved units, and exceptional cooling capabilities.

The range boasts a wide range of features that make it the perfect solution to the needs of challenging commercial and seasonal demands. The units provide continuous cooling when outside temperatures are between -15 °C and 46 °C.

### Solutions for cold rooms, wine cellars and special low temperature rooms

Boasting exceptional energy performance, the system ranks among the best in its class (SEER A++) and its inverter technology reduces power consumption and operating costs by 20%. This, combined with the use of R32 gas to reduce the unit CO<sub>2</sub> emissions, ensures Panasonic PACi solutions offer market-leading efficiency. The latest models in the series are not only built to the highest industry standards to ensure optimum efficiency,

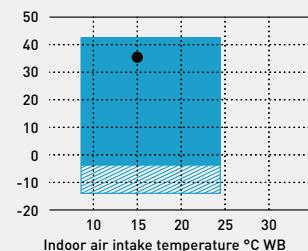

they are also lightweight, with a slim and compact design, making these units easy to install. Just like all the indoor units in the PACi range, these units can be monitored via the internet, generating an alarm if there is a breakdown. One of the main features of the PACi series is the possibility of adjusting the product for special applications, not just for regular heating and cooling applications.

### The perfect solution for:

- Wine cellars
- Food storage
- Ice cream factories
- Flower shops
- Food processing
- Supermarkets
- Lunchrooms
- Grain stores
- Vegetable processing

### Range of temperature for wine cellar

In cooling. Outdoor air intake temperature °C DB.

Only allowed after installation of wind and snow vents.

● Area where cooling and heating capacity is established for this purpose.

# Commercial twin, triple and double-twin systems

## Smart multi-site control solution.

Modern and scalable energy management for your Heating & Cooling Solutions.

The smart multi-site control solution allows you to have complete control of all your installations. With a simple click, all your units from several locations, receive status updates in real-time preventing breakdowns and optimising costs.

**Installation.**  
Easy installation and configuration.

**Connectivity.**  
A standard LAN connection with internet access (fibre or mobile).

**Reliability.**  
24/7/365 days connection.

**Use.**  
Real-time control from anywhere.

**Roles and permission.**  
Easily configure different access roles for each user.

**Security.**  
Highly secure communication and compliant with GDPR.

# Commercial VRF Systems

Panasonic VRF Systems are specifically designed for energy saving, easy installation and high efficiency performance. A wide range of outdoor and indoor unit models offer unique features which are designed for the most demanding offices and large buildings.

## Mini ECOi LZ2 Series R32 and Pump Down System.

Outstanding efficiency in a compact body and continuous operation even at extreme ambient temperature.

- Low GWP and less refrigerant
- SEER up to 8.50 and SCOP levels up to 5.05 <sup>1)</sup>
- Operation range down to -20 °C in heating and up to 52 °C in cooling
- Optional Panasonic R32 refrigerant leak detector available

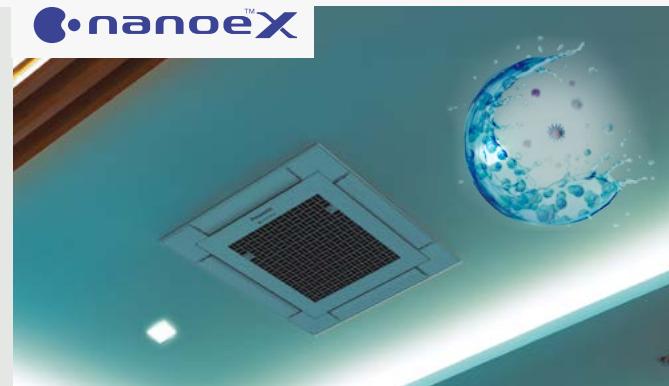

1) 4 HP model.

## New Y3 / U2 / F3 indoor units with upgraded nanoe™ X · R32 / R410A.

- Better indoor air quality with nanoe™ X Mark 3
- Quick effect in even large space
- Bacteriophage inhibition 99% in 4 hours at the room size 139 m<sup>2</sup> <sup>1)</sup>
- nanoe™ X is a filter free solution that does not require maintenance

1) [Test organization] SGS Inc. [Test subject] Adhesive virus (bacteriophage) [Test volume] 139 m<sup>3</sup> [Test result] Inhibited 99% in 4 hours [Device type] nanoe X Generator Mark 3, Internal unit: 4 way cassette.

## Hydraulic solution for VRF projects.

- Water heat exchanger for chilled and hot water production. It's ideal for hotel project
- PRO-HT DHW tank for the demand of high temperature hot water
- Hydrokit for the medium water temperature application

## Electricity or Gas or Hybrid? Various VRF technologies satisfy your project needs.

- VRF ECOi EX series with high seasonal performance and flexibility
- Gas driven VRF, ECO G series for the project location with lack of electricity
- Hybrid GHP/EHP taking advantage of gas and electricity to achieve better energy savings

### Electrical information (power supply to indoor)

Outdoor unit	HP	Three phase	
		8	10
Recommended fuse	A	16	20

1) SEER / SCOP and η<sub>s,c</sub> / η<sub>s,h</sub> are in accordance with ErP test data for F2 type variable static pressure hide-away indoor units. Eurovent certified. 2) SEER / SCOP is calculated based on the seasonal space cooling / heating efficiency "η" values of the COMMISSION REGULATION (EU) 2016/2281. SEER, SCOP = (η + Correction) × PEF.

## R32 Pump Down solution.

New R32 Pump Down solution offers the assurance of additional safety protection, whilst expanding the potential installation cases, allowing for installation within smaller rooms.

Suitable for the Mini ECOi LZ2 range up to 10 HP, compatible indoor units connected to CZ-CGLSC1 or integrated Panasonic R32 refrigerant leak detector.

Model reference	Description	RRP £
PAW-PUD2WB-1	Basic Pump Down system (2 way) for one R32 Mini ECOi outdoor unit	TBC
CZ-CGLSC1	Panasonic R32 refrigerant leak detector for MU2, MY3, MM1 and MK2 models	174

# Mini VRF - Mini ECOi LE Series R410A

## Mini ECOi LE2 Series high efficiency 4 to 6 HP · R410A

Ideal solution for the limited installation space.

Wide operation range from -20 °C in heating to +46 °C in cooling.

Outdoor unit		Nominal capacity		ErP data <sup>1)</sup>		Dimension	Weight	RRP

Maximum piping length (total)	m	7.5 - 150(7.5 - 300)	7.5 - 150(7.5 - 300)
Elevation difference (in / out)	m	50[OU above] / 40[OU below]	50[OU above] / 40[OU below]

### Electrical information (power supply to indoor)

Outdoor unit	HP	Three phase		
		8	10	20
Recommended fuse	A	16		20

1) SEER / SCOP and η<sub>s,c</sub> / η<sub>s,h</sub> are in accordance with ErP test data for F2 type variable static pressure hide-away indoor units. Eurovent certified. 2) SEER / SCOP is calculated based on the seasonal space cooling / heating efficiency "η" values of the COMMISSION REGULATION (EU) 2016/2281. SEER, SCOP = [η + Correction] × PEF. 3) Under 90 m for ultimate indoor unit. 4) Over 90 m for ultimate indoor unit. If the longest piping equivalent length exceeds 90 m, increase the sizes of the main tubes by 1 rank for gas and liquid pipes.

## New Panasonic DX PRO Designer.

The Panasonic DX PRO Designer will be rebuilt with an improved user experience. The new software runs in the cloud and is always up to date with the latest products. An intuitive interface supports the most complicated designs, allows online sharing and project collaboration with multilingual support.

\* Available from Spring 2023.

# VRF - ECOi EX Series

## 2-Pipe ECOi EX ME2 Series

High performance at extreme conditions.

Oil recovery intelligent control for high performance and comfort.

Wide operation range from -25 °C in heating to +52 °C in cooling.

# VRF - ECOi EX Series

## 3-Pipe ECOi EX MF3 Series

Simultaneous heating and cooling operation with heat recovery.  
Slim heat recovery boxes with just 200 mm height.  
Wide operation range from -20 °C in heating to +52 °C in cooling.

Outdoor unit		Nominal capacity		ErP data <sup>1)</sup>		Dimension	Weight	RRP

### Electrical information (power supply to indoor)

Outdoor unit	HP	8	10	12	14	16
Recommended fuse	A	16	20	25	40	30

1) SEER / SCOP and  $\eta_{s,c}$  /  $\eta_{s,h}$  are in accordance with ErP test data for F2 type variable static pressure hide-away indoor units. Eurovent certified. 2) SEER / SCOP is calculated based on the seasonal space cooling / heating efficiency "η" values of the COMMISSION REGULATION (EU) 2016/2281. SEER, SCOP = (η + Correction) × PEF.

## Smart multi-site control solution.

Modern and scalable energy management for your Heating & Cooling Solutions.  
With a simple click, all your units from several locations, receive status updates in real-time preventing breakdowns and optimising costs.

**Installation.**  
Easy installation and configuration.

**Connectivity.**  
A standard LAN connection with internet access (fibre or mobile).

**Reliability.**  
24/7/365 days connection.

**Use.**  
Real-time control from anywhere.

**Roles and permission.**  
Easily configure different access roles for each user.

**Security.**  
Highly secure communication and compliant with GDPR.

## New Y3 / U2 / F3 indoor units with upgraded nanoe™ X (Generator Mark 3).

The nanoe X Generator Mark 3 has the largest amount of hydroxyl radical in the history of nanoe™ which generates 100 times the hydroxyl radical contained in traditional nanoe™.

The increased number of hydroxyl radical are the key to nanoe™ cleaning power, means you can expect an even higher level of performance.

Y3 type 4 way 60x60 cassette

U2 type 4 way 90x90 cassette\*

F3 type variable static pressure adaptive duct\*

\* Available in Summer 2023. 1) [Test organization] SGS Inc. [Test subject] Adhesive virus (bacteriophage) [Test volume] 139 m³ [Test result] Inhibited 99% in 4 hours [Device type] nanoe X Generator Mark 3, Internal unit: 4 way cassette.

Bacteriophage inhibition 99% in 4 hours at the room size 139 m²<sup>1)</sup>

# PRO-HT Tank Series for ECOi

## PRO-HT Tank DHW

## PRO-HT TANK

### Domestic hot water tank for ECOi Series.

Maximum hot water outlet temperature 65 °C without boosters.

Water volume 750 L and 1000 L.

Compatible with 3-Pipe ECOi (VRF) System 16 HP.

\* One cloud adapter is required per 128 indoor units. 1) The adapter has to be sold always together with start up. 2) AC Service Cloud is required to use this function. 3) Floor map and indoor assignments can be done by customer without additional charge. 4) Data amount of SIM card is not included.

# Panasonic ventilation solutions

Panasonic ventilation solutions for maximum savings and easy integration.

## Ceiling mounted air-e nanoe X Generator.

First standalone nanoe X Generator available. Compact and modern design match well into any ceiling materials.

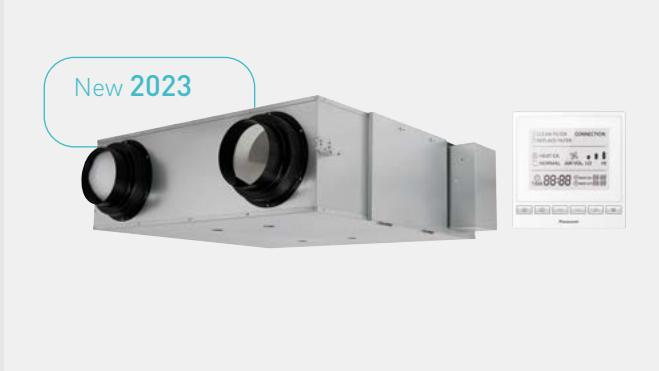

- Quiet operation - at 27 dB(A)
- Low power consumption
- Easy Installation
- nanoe™ X is a filter free solution that does not require maintenance

## New Energy recovery ventilation.

Extended line-up covering 2000 m³/h model meet variety of commercial use.

- F7 grade filter built-in all models
- Independent motors equipped for air supply/exhaust
- Easily adjust air volume balance - 4 speeds setting for air supply / exhaust
- Intuitive control design
- BMS connection available (RS485 built-in controller)

**AHU connection kit 3.6 to 14.0 kW for PACi NX and PACi**

CONEX Bluetooth® version (CZ-RTC6BL) is built-in.  
Easy connection and set-up is possible via Bluetooth®.  
0-10 V demand control with optional interface (CZ-CAPBC2).

## New advanced energy recovery ventilation.

Indoor air quality (IAQ) is a key consideration for any business owner looking to create a healthy and comfortable environment. Panasonic energy recovery ventilator (ERV) recovers up to 83% heat exchange efficiency, providing balanced, energy-efficient ventilation by transferring heat and moisture between incoming fresh filtered air and outgoing stale air.

FV-1HZY1G

FV-1KZY1G

Remote controller

- DC motors
- EN F7 grade filter
- Up to 150 Pa
- Backdraft shutters equipped
- RS485 terminal

## Electric air curtain

Comprehensive product line up (width: 0.9 m 1.2 m and 1.5 m).  
Simple structure for easy installation and maintenance.

ECO*i*-W

# Discover the ECOi-W. Cooling only and heat pumps chillers

ECOi-W Series can be combined with variety of HVAC solutions to meet all the needs in commercial and industrial applications.

## ECOi-W R32 cooling only and heat pumps chillers.

- Sustainable chiller solutions with R32 refrigerant
- High seasonal efficiency, SEER up to 4.64<sup>1)</sup> and SCOP levels up to 3.73<sup>2)</sup>
- Operation range down to -15 °C in heating and up to 48 °C in cooling
- Customisable design
- Optimised design for service and maintenance

1) Cooling only model: size 150. 2) Heat pump model: size 130.

## Cascade Control - Plug & Play solution.

- Cascade up to 8 ECOi-W outdoor units
- Fully compatible with ECOi-W R32 and R410A Series
- Ready to connect ECOi-W Cloud and RS485 terminal equipped
- Optimized control for defrosting and domestic hot water (DHW)
- Backup and rotation control available

New 2023

## Remote monitoring service ECOi-W Cloud.

- Optimizing the service and maintenance work thanks to remote access in real time
- Alarm notification via e-mail
- Reporting and graph visualization with 300 varieties
- Various LED signals on the hardware to check the status on site
- Maximum 10 outdoor units connectable

## Fan coils.

- Full year comfort with water based system
- High efficiency and low noise operation
- Operation in heating and cooling available
- An efficient coil provides high heat transfer efficiency, durability and hygiene.
- Flexible installation with the choice 2 or 4-pipe, AC or EC fan
- Stylish and sophisticated design control with BMS connection available

## Plug & Play control for ECOi-W cascade systems.

Cascade up to 8 ECOi-W outdoor units.

- Fully compatible with ECOi-W R32 and R410A Series
- Ready to be integrated with ECOi-W Cloud (PAW-CM000SP041)
- RS485 terminal equipped to integrate with Building Management Systems
- Optimized control for defrosting and domestic hot water (DHW)
- Backup and rotation control available
- Flexible control of external water pumps (up to 2 external pumps)

## Plug & Play solution – ready to use.

The cascade controller consists of a latest generation electronic board with user interface display, power supply and protection switch. All the components are enclosed in a plastic container in RAL 7035 color, with IP65 protection degree equipped with a smoked inspection door that can be closed with a key. The switchboard can also be installed outdoors without any protection.

### Water connections information

Fan coils	150	180	210	240	270
Type	Gas Male threaded				
Water connections 2-pipe	Inch 1	1 1/4	1 1/4	1 1/4	1 1/4
Water connections 4-pipe (cool - heat)	Inch 1 - 3/4	1 - 3/4	1 - 3/4	1 1/4 - 3/4	1 1/4 - 3/4

1) According to Eurovent standard. Air: 27 °C DB / 19 °C WB. Water in / out: 7 °C / 12 °C. 2) Air: 20 °C. Water in / out: 50 °C / 45 °C.

Values indicated are for 50 Pa external static pressure, for additional pressure characteristics, please refer the selection software.

# Fan coils

## Fan coils - 4 way cassette (AC)

2 and 4-pipe configurations.

3-speed AC fan motor. Cleanable synthetic-type air filter.

For required options 2 way or 3 way valves and remote controllers see accessories page 85.

\* Smart fan coils is produced by Innova.

## Wired controllers for AC and EC fan coils

Controllers with sophisticated designs, provide a user friendly interface while enabling an easy and low cost integration to building management systems.

### Advanced wired remote controller (AC).

#### PAW-FC-RC1

- For 2-pipe and 4-pipe, AC fan
- Change Over function (cold draft prevention)
- Room thermostat
- 3 outputs, 230 V relays for fan control
- 2 outputs, 230 V relays for heating / cooling control
- Connection to BMS - Modbus RTU slave
- 1 DI for presence detection (key card switch)
- 1 AI for sensor

### Wired remote controller (AC/EC).

#### PAW-FC-907AC

- For 2-pipe, AC fan
- Back lit LCD screen with touch control
- 3 speed control relay, for fan
- Economizer

### Wired remote controller (AC/EC).

#### PAW-FC-903AC

- For 2-pipe, AC fan
- Back lit LCD screen
- 3 speed control relay, for fan
- Economizer

### PAW-FC-907EC

- For 2-pipe and 4-pipe, EC fan
- Back lit LCD screen with touch control
- Adjustable range EC fan control
- Economizer
- Connection to BMS via Modbus
- 1 DI for presence detection (key card switch)

### PAW-FC-903EC

- For 2-pipe and 4-pipe, EC fan
- Back lit LCD screen
- Adjustable range EC fan control
- Economizer
- Connection to BMS via Modbus
- 1 DI for presence detection (key card switch)

# CO<sub>2</sub> condensing units - CR Series with natural refrigerant

Panasonic's CO<sub>2</sub> condensing units - CR Series provide the ideal solution for supermarkets, convenience stores and gas stations.

## CO<sub>2</sub> transcritical condensing units - CR Series.

- Reliable quality - made in Japan
- Set-points at medium or low temperature available depending on applications
- 2-stage compressor with the split cycle for increased efficiency
- High seasonal performance and high COP at high ambient temperature

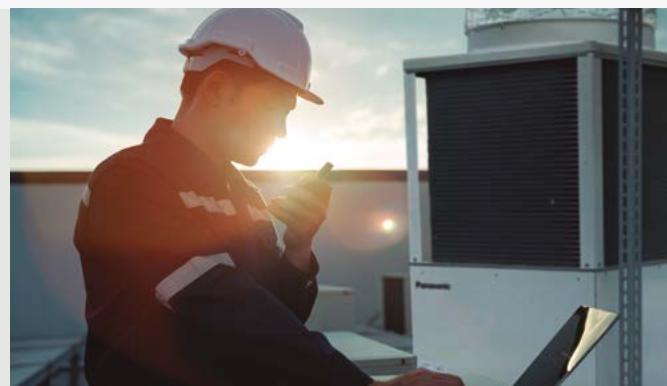

## Compact control panel and electric expansion valves (EEVs).

- A compact intelligent controller has the smart program especially for cold rooms
- 7 different sizes EEVs are ready to meet precisely the field demand

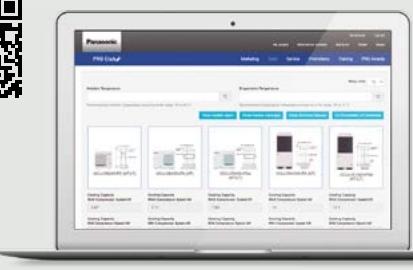

## CO<sub>2</sub> service checker.

- Useful tool supporting daily technical tasks on the field such as commissioning
- Reading and recording variable technical parameters
- Monitoring an alarm status

## Design support tool available in Panasonic PRO Club.

- Supporting engineers and installers to make a quick calculations when specifying the project
- Ready to work on all computers, tablets and smartphones

4 & 5 series indoor units: Above is a table showing the current Panasonic equivalent for each Sanyo indoor model. Indoor units can be added or replaced without any setting changes.

Please note there have been design changes therefore dimensions and appearances will not be the same. Please check in technical manual.

3 series indoor units: When using a current Panasonic R410A outdoor and mixing the current Panasonic indoors with 3 series Sanyo indoor units on the same system, you will need to access the detailed settings to change code 15 to 0029 on the Sanyo indoor units.

In almost all circumstances it is possible to replace old Sanyo units with current Panasonic models however, each Sanyo generation has different criteria to consider when replacing. Below we have outlined how to replace each generation.

#### VRF - 4 Series outdoor units - 3-Pipe

Sanyo reference	Panasonic equivalent
SPW-CR704GDZH8	U-8MF3E8
SPW-CR904GDZH8	U-10MF3E8
SPW-CR1154GDZH8	U-12MF3E8
SPW-CR1304GDZH8	U-14MF3E8
SPW-CR1404GDZH8	U-16MF3E8
SPW-CR704GDZH8B	U-8MF3E8
SPW-CR904GDZH8B	U-10MF3E8
SPW-CR1154GDZH8B	U-12MF3E8
SPW-CR1304GDZH8B	U-14MF3E8
SPW-CR1404GDZH8B	U-16MF3E8

Please be advised that when replacing Sanyo outdoor unit with any U-\*\*MF3E8 outdoor unit. It is necessary to take into consideration that the discharge pipe length is required for additional refrigerant charge.

#### VRF - 3 Series 3-Pipe - R407c

Sanyo reference	Panasonic equivalent
SPW-CR703GZH8	U-8MF3E8
SPW-CR903GZH8	U-10MF3E8

This generation runs on R407c refrigerant so it is always best practice to replace all equipment and take advantage of Panasonic's renewal technologies. However in situations where this is not feasible then it is possible to replace indoors and also outdoor units with conditions. When carrying out these replacements it is particularly important to check the wall thickness and integrity of the pipework is appropriate for re-use and that standard renewal procedures are followed.

NOTE: The new R410A system will run at a lot higher pressure than the existing R407c system therefore it is necessary to change a setting on the outdoor unit which will restrict the running pressure to the lower value associated with R407c refrigerant. As a further fail safe it is recommended to replace the high pressure switch, the part number for this is CZ-PSWK2.

Please be advised that when replacing Sanyo outdoor unit with any U-\*\*MF3E8 outdoor unit. It is necessary to take into consideration that the discharge pipe length is required for additional refrigerant charge.

#### Local and system controls

Controls	Sanyo reference	Panasonic equivalent
Wired remote controller	RCS-TM80BG	CZ-RTC5B
Schedule timer	SHA-TM64AGB	CZ-ESWC2
System controller	SHA-KC64AGB	CZ-64ESMC2
ON / OFF controller	SHA-KC16KAGB	CZ-ANC2
Intelligent controller	SHA-KT256EG	CZ-256ESMC2
Communication adaptor connector	SHA-KA128AGB	CZ-CFUNC2
Seri-Para I/O unit for outdoor	ACC-XSP4U1GB	CZ-CAPDC2
Interface adaptor	SHA-KL4UGB	CZ-CAPC2
Seri-Para I/O unit for each I/U	ACC-SP1AGB	CZ-CAPBC2
LonWorks® interface	SHA-LN16UGB	CZ-CLNC2
Web interface	SHA-KW64EG	CZ-CWEB2

All local controls work via the same 2 core cable as current Panasonic controllers meaning they can easily be replaced for new controllers. The appearance of the new Panasonic controls have changed and also not all of the new features will work on existing Sanyo equipment (i.e. energy monitoring on CZ-RTC5B).

The same applies for system controls and other interfaces which operate using 2 core communications (U1,U2) therefore new replacements are compatible just some of the new features may not be available.

#### Heat Recovery Boxes

Sanyo reference	Panasonic equivalent
ATK-RZP56BGWB	CZ-P56HR3
ATK-RZP56BG	CZ-P56HR3
ATK-ZP80UG	CZ-P56HR3
ATK-RZP160BGWB	CZ-P160HR3
ATK-RZP160BG	CZ-P160HR3
ATK-ZP140UG	CZ-P160HR3
ACC-3WAY-AGB	CZ-CAPE2
ACC-3WAY-AG	CZ-CAPE2
CR-3WAY-TG	CZ-CAPE2

Care must be taken when replacing SVK boxes due to variation of wirings. The Sanyo kit used a cable with additional connectors. Please check wiring and spare parts for differences.

The above is for guidance only, please contact your usual sales representative before proceeding with Sanyo replacement for up to date advice.

To amend the setting you will need a standard controller CZ-RTC4 or CZ-RTC5 and a maintenance cable PAW-MRC which allows you to plug the controller on the outdoor PCB. Once connected follow the procedure below to change the code.

Please contact Panasonic Technical Department before proceeding.

## Panasonic service

Our Panasonic Service teams are committed to ensuring your peace of mind. Best service is our aim.

Panasonic provides a team of highly trained technicians and engineers to deliver professional and responsive services that meet the highest levels of quality and safety while being efficient and cost effective.

To find out more about Panasonic Heating & Cooling Solutions, please visit [www.panasonic.co.uk/aircon](http://www.panasonic.co.uk/aircon).

### Maintenance.

To meet the requirements of the standard warranty, the product must be maintained and serviced annually by a suitably trained and qualified engineer. This way we can extend the lifetime of the product.

### Repair.

Panasonic offers a wide range of service agreements, like Panasonic Service+ for a maximized product lifetime. Leave the care of your Panasonic products to the experts. In the unlikely event that something goes wrong, trust one of our qualified and Panasonic trained experts to get things back on track.

### Warranty.

In accordance with the regulations, Panasonic guarantees its products against hidden defects. Moreover, Panasonic grants to the professional purchaser a commercial warranty, specific to the product families, subject to compliance of all the rules of installation and use of its products.

## Panasonic Heating & Cooling Solutions customer service

Panasonic enables different channels for end users or professionals to get in touch with us:

Use our European website [www.panasonic.eu](http://www.panasonic.eu) for contacting us.

Panasonic has implemented a contact page on the Panasonic Heating & Cooling Solutions website for potential or existing Panasonic customers.

Another option is to contact the highly experienced teams at the Panasonic customer service center, who are more than qualified to support Panasonic clients in 13 different languages across Europe.

**Our service center for United Kingdom end customers:**
